**Hebe ‘Jewel of the Nile’**

Hebe ‘Jewel of the Nile’ is a real crown jewel. The beautiful leaf color changes with the seasons, giving the plant its special appearance all year long. 'Jewel of the Nile' has green leaves with a wide yellow border and red margin. From the end of spring into the early summer it flowers heavily, with ruby flowers.

'Jewel of the Nile' is a perfect container plant for patio or balcony. Its final size is 80 cm (30") high and wide and it grows in full sun. Planted in the garden, some winter protection is necessary.

---

**Hebe ‘First Light’**

The foliage of Hebe ‘First Light’ is dark green and has a bronze margin. In winter, the leaves color completely bronze-green. In spring, ‘First Light’ flowers with short bright pink, purple-like panicles. 'First Light' flowers exceptionally long. The plant is about 30 cm (1 ft) high and 90 cm (3 ft) wide and needs some protection against frost. ‘First Light’ is perfectly suited to grow in a container on a patio or balcony.

---

**Hebe ‘Lady Ann’**

In the summer, the foliage of Hebe ‘Lady Ann’ is green with a silvery-white margin. Sometimes the main vein is also white. In spring the young shoots are purplish red and will be readily followed by dark pink flowers.

In spring the attractive young shoots of ‘Lady Ann’ are still visible and make a fine combination with the beautiful dark flowers.

---

**Hebe ‘Sunset Boulevard’**

Hebe ‘Sunset Boulevard’ flower heavily with bright purple-pink flowers, from spring, far into the summer. The plant grows into a beautiful, bright green sphere of about 80 cm (3 ft) high and wide.

‘Sunset Boulevard’ grows in full sun in moist, but well-drained soil. ‘Sunset Boulevard’ is a perfect container plant for patio or balcony. Planted in the garden, some winter protection is necessary.
